2045 Long Range Transportation Plan TransForum

What's important to you?

You are invited to join Manatee and Sarasota County and City Elected Officials, the Sarasota/Manatee Metropolitan Planning Organization and the Florida Department of Transportation (FDOT) District 1 to begin the process of prioritizing regional transportation needs.

The purpose of the 2045 Long Range Transportation Plan (LRTP) is to develop future transportation facilities in Sarasota and Manatee Counties. The LRTP must consider the full complement of transportation modes – roads, bicycles, pedestrians, trails, transit, parking, railroads and airports as well as community issues including safety, equity, comprehensive plans, land use, and environmental resiliency. The plan includes at least twenty years and must be updated every five years.
